Forecast For Wales
Issued by Met Office Exeter
at 0400 on Wednesday 27 Jan 2021

++ Valid for broadcast between 0600 and 1800

Headline:
A largely dry start, becoming wet and windy.

Today:
A largely dry but often cloudy start, before a band of rain, heavy at times, begins to move across the country from the south west through the afternoon. Feeling mild, with light winds that begin to strengthen later. Maximum temperature 9 deg C (48 deg F).

Tonight:
A wet evening as the band of rain continues to move across the country. Rain eases slightly overnight but still affects most through the early hours. Windy, especially along coasts. Minimum temperature 5 deg C (41 deg F).

Thursday:
A largely dry day, with rain lingering across northeastern areas through the morning. Drier during the afternoon, with sunny spells. Further rain likely through the evening. Breezy, but feeling mild. Maximum temperature 10 deg C (50 deg F).

Outlook for Friday to Sunday:
Starting wet on Friday with a risk of gales, becoming drier later. Sunny on Saturday, with overnight frosts. Rain with a risk of hill snow arriving Sunday.
